

dodge.com / 800-4ADODGE / 2010 JOURNEY

This crossover jets onto the scene with a toned and chiseled profile and signature Dodge crosshair grille. Whether it be the standard 2.4-liter I-4 World Engine with dual Variable Valve Timing (VVT) and superb fuel economy (19 city/25 hwy mpg)⁽¹⁾ or the available 3.5-liter High Output V6 engine with 235 horsepower, 6-speed automatic transaxle and AutoStick,[®] Journey delivers. Equip Journey with available all-wheel drive (AWD) for improved performance and decisive handling in nearly all conditions. Simply put, Journey's game for anything. For more, hit up dodge.com/journey ⁽¹⁾Based on EPA estimates.

Chrome accents, innovative features, and available modern seating surfaces outfit Journey's eye-popping interior. The instrument panel houses a three-pod instrument cluster that emits a cool glow when illuminated. The sleek dash flows around a raked center console that holds the available 6.5-inch touch-screen Media Center 830N AM/FM/CD/DVD^[1] radio. The available ParkView[®] Rear Back-Up Camera^[2] displays an accurate visual reference of what is behind your Journey when you are driving in Reverse. Entertain rear-seat passengers with the available SIRIUS Backseat TV[™] that provides live content from Nickelodeon,[™] Disney Channel, and Cartoon Network to stream directly to Journey. ^[1]In-dash DVD capability not available in all states.

See your dealer for details. ^[2]Always check entire surroundings before backing up.

The background features a large, stylized Dodge logo in a dark gray color, set against a solid black background. The logo is composed of three slanted parallel lines forming a triangular shape, with a horizontal line across the middle. The text is centered within the white space of the logo.

When you enhance your Journey with Authentic Dodge Accessories by Mopar, you gain far more than sophisticated style, premium protection, powerful performance, or engaging entertainment. You also benefit from the peace of mind that comes with knowing that each and every accessory has met Mopar's stringent guidelines for tolerances and quality. Choose from the full line of accessories that feature a fit, finish, and functionality designed specifically for your Journey. **CHROME BODYSIDE MOLDINGS** add bright, bold looks, and **SIDE WINDOW AIR DEFLECTORS** offer elemental protection with plenty of style. Check us out at mopar.com

Journey starts with standard five-passenger seating featuring 40/60 split fold-flat stadium-style second-row seats; opt for a power six-way driver's seat. Leather-trimmed, reclining seats are standard on R/T models while all other models sport class-exclusive^[1] Stain Repel stain-resistant, odor-resistant, antistatic seat fabric.^[2]

Available 50/50 split fold-flat rear seats with six-degree recline provide room for two additional passengers.

Rear doors that open 90 degrees and available Tilt 'n Slide second-row seats create an even easier entry to the available third-row seats. Like a modular work station, the available front-passenger seat folds down to provide a table-like surface or additional cargo-carrying capability for larger items. The available rear DVD system with CD/MP3 capability features a 9-inch LCD screen, remote control, two wireless headphones and plays DVDs, MP3s, and audio and video CDs through auxiliary input jacks.^[1]Based on *Ward's* 2009 Middle Cross/Utility Vehicle segment.

^[2]Not compatible with aftermarket fabric-protecting coatings.

Uconnect MEDIA CENTER. 830N AM/FM/CD/DVD^[1]

radio with 30GB hard drive, GPS Navigation, 6.5-inch touch screen, MP3/WMA support, USB input, 4,250 song capacity, SIRIUS® Satellite Radio, SIRIUS Traffic™ and Voice Command.

iPOD® CONTROL. Connect most iPod compatible devices to your car's stereo using the in-car cable, then control them with your radio or steering wheel controls. Keeps the devices charged too. **UCONNECT™ WEB.**^[2] An in-car router that connects

any Wi-Fi-enabled device to the Internet at 3G broadband speeds, allowing multiple passengers to surf the Web and social networks, look up directions, check eMail or download music. UCONNECT WEB is an Authentic Dodge Accessory by Mopar. Subscription required, sold separately. **VOICE COMMAND.**

Lets you select radio stations, satellite radio channels,^[3] and navigation^[3] destinations using voice commands. Works with all Uconnect Media Center radios. Included with Uconnect Phone. **UCONNECT PHONE.** Lets you talk on

your Bluetooth® compatible phone virtually hands-free. Address Sync^[4] lets you call anyone in your address book by saying

their name. ^[1]In-dash DVD capability not available in all states. See your dealer for details. ^[2]The Uconnect Web

feature is not intended for use by the driver while the vehicle is in motion. ^[3]When satellite radio and navigation features

are equipped on your vehicle. Any voice-commanded system should be used only in safe driving conditions and all

attention should be kept on the roadway ahead. Failure to do so may result in an accident causing serious injury or death.

^[4]Phone must support Bluetooth Phone Book Access Profile (PBAP).

Every cubic foot of Journey's cabin was cleverly constructed. The result is an available best-in-class^[1] storage system that includes an easy-to-access center floor console with illuminated cup holders and out-of-view storage for items like portable electronics. The available 115-volt/150-watt two-prong power outlet allows passengers to plug in DVD players, game consoles, or audio hookup. Two in-floor storage bins with lids each hold up to a dozen 12-oz cans plus ice or other items. The liners are removable so they're a snap to clean and make the perfect tailgating accessory. SXT, Crew and R/T models include a Flip 'n Stow™ fold-flat front passenger seat. The seat's hinged cushion flips forward to reveal a large storage bin perfect for stowing a purse or a laptop — or containing carryout meals. Rear cup holders conveniently located on the rear quarter panel accommodate 20-oz drinks or juice boxes. Two more cup holders can be found in the second-row fold-down console. A standard hidden storage bin and access door to the tool and jack compartment is located behind the rear seat. When hauling gear is the priority, fold down the seats for 67.6 cu ft of cargo capacity. Properly secure all cargo.

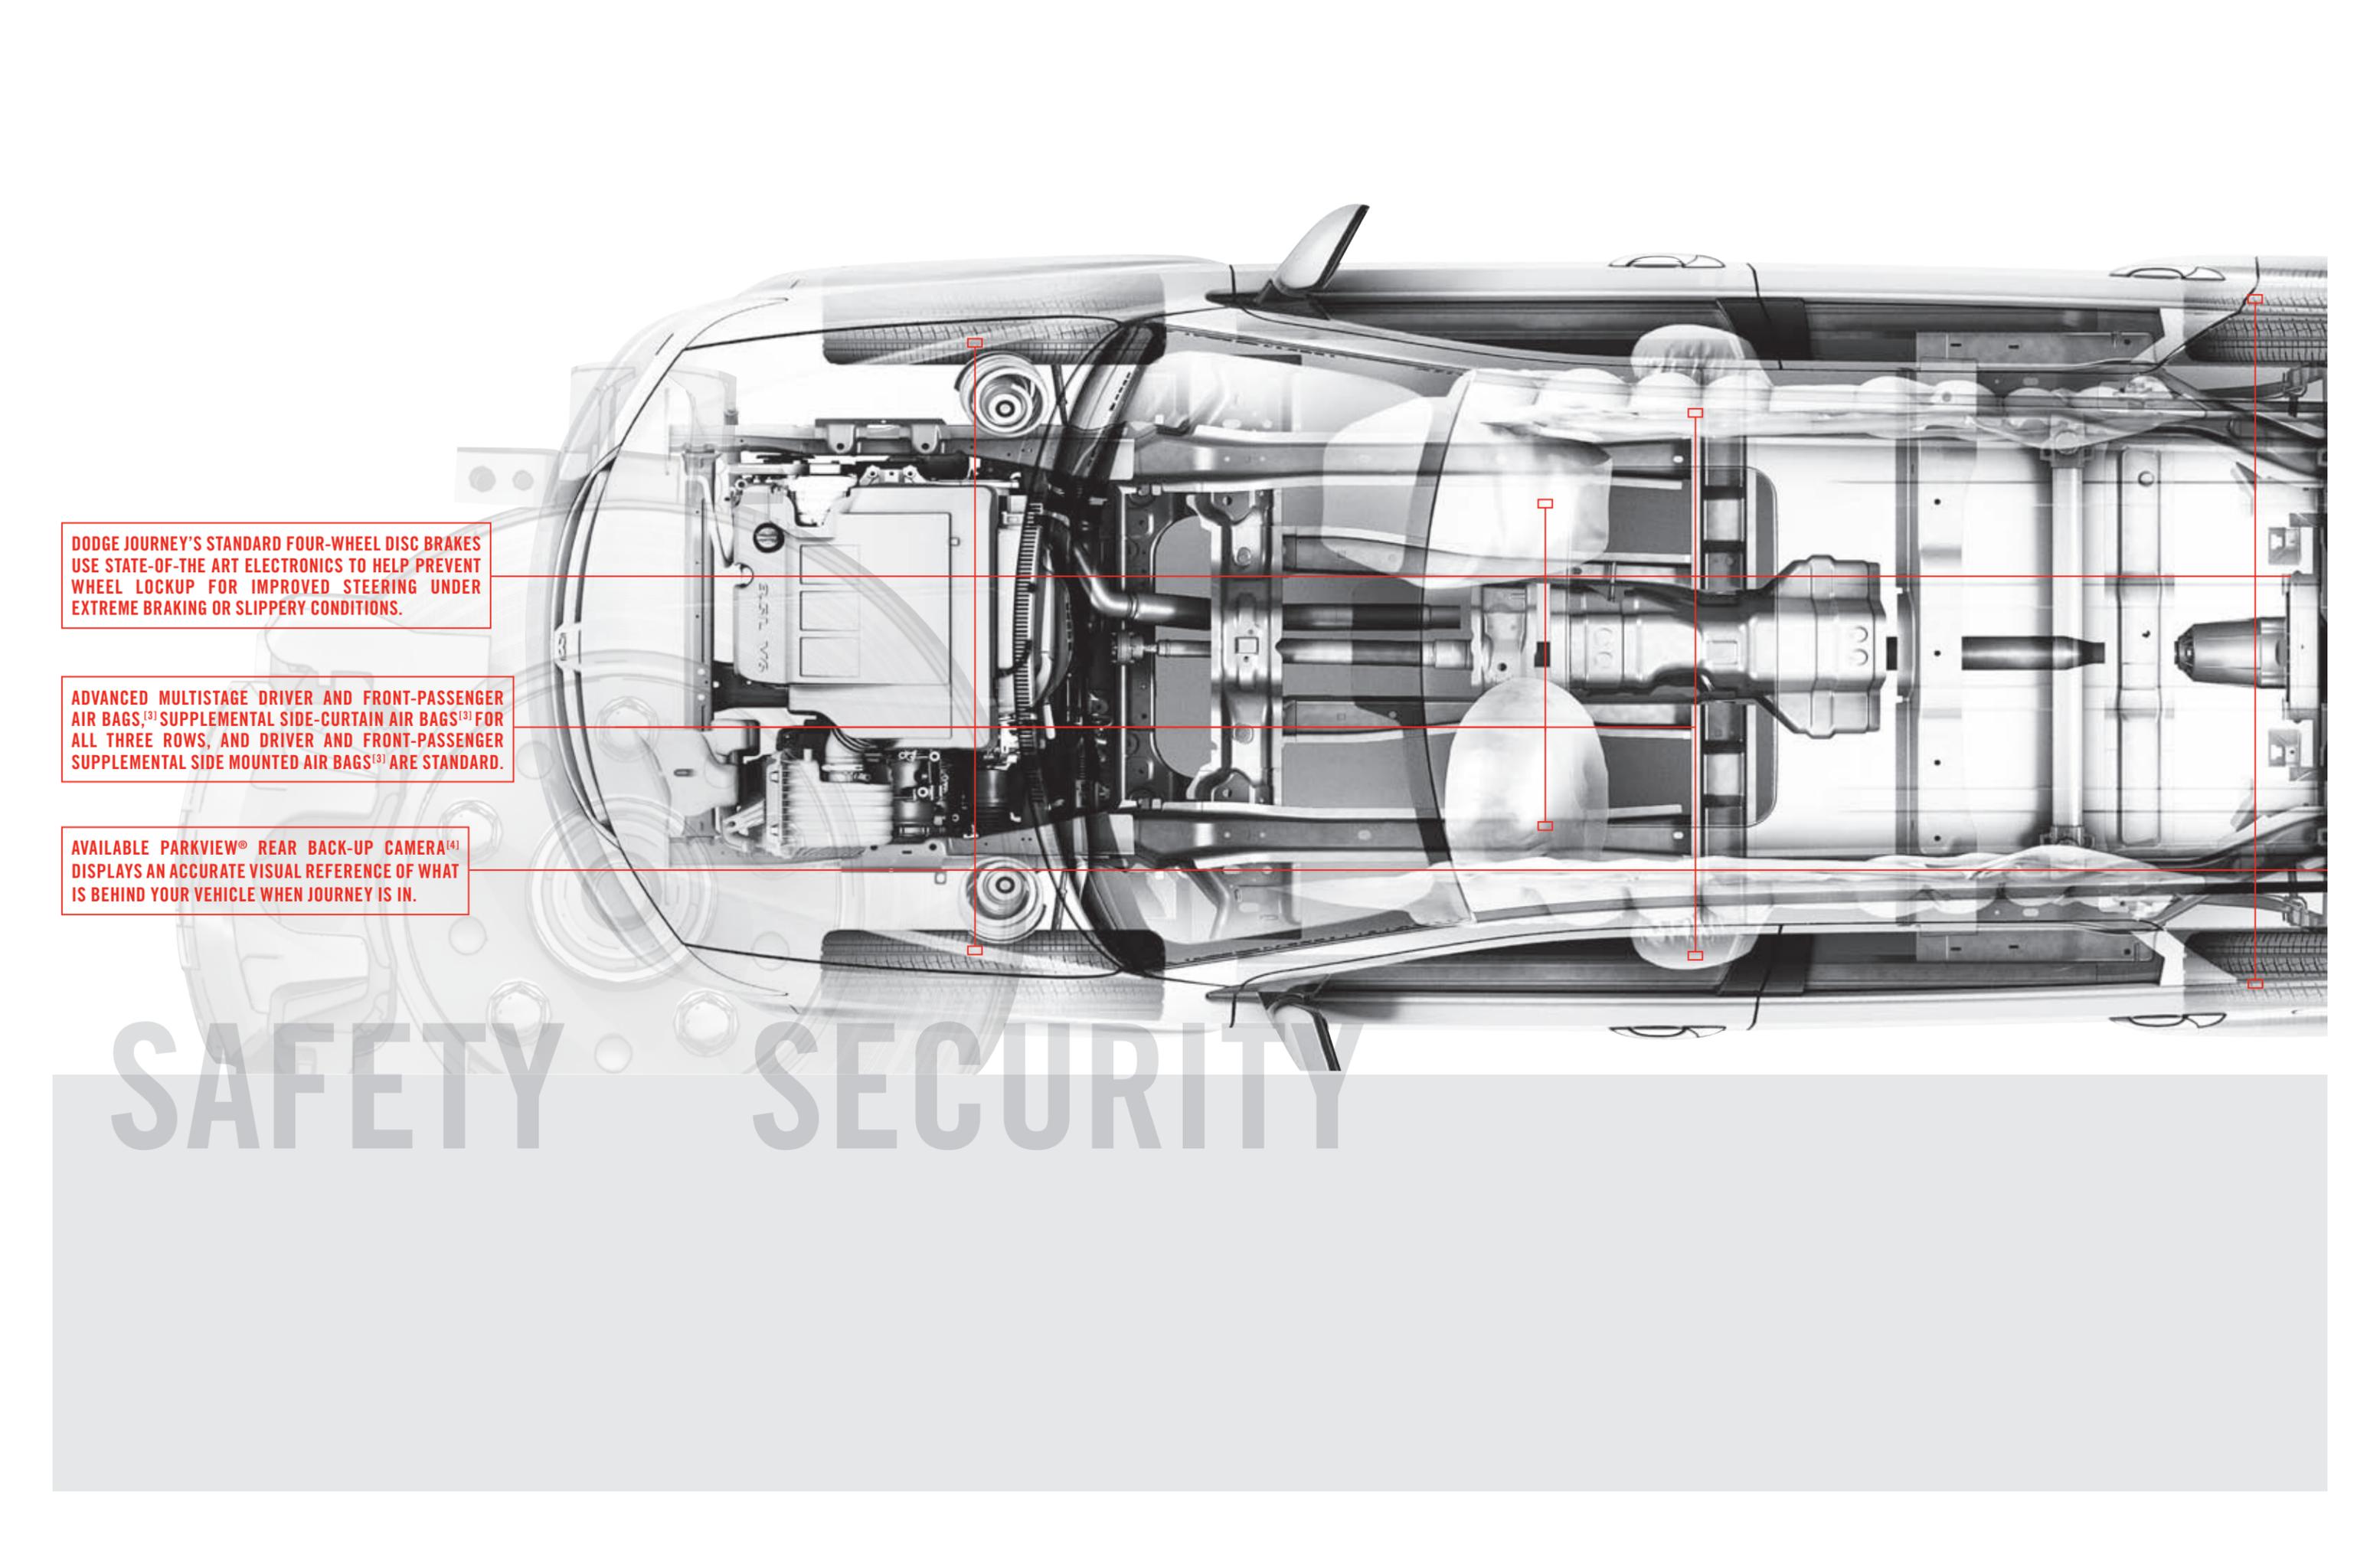

^[1]Based on *Ward's* 2009 Middle Cross/Utility Vehicle segment.

Systems like crush zones and safety-cage construction work together to absorb or direct impact energy away from the passenger compartment in the unfortunate event of an accident. For children who have outgrown aftermarket child seats, Journey offers dual integrated child booster seats.^[1] Electronic Stability Control (ESC)^[2] — which includes all-speed traction control, Brake Assist, Electronic Roll Mitigation, and Trailer Sway Control — assists the driver in maintaining control of the vehicle during extreme steering maneuvers. ESC works to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels. A warning lamp illuminates when low tire pressure is detected. Equip Journey SXT, Crew or R/T models with all-wheel drive (AWD) for improved performance and handling, as well as added traction in nearly all conditions, especially on wet, slippery roads. ^[1]For children 48-85 lb and up to 4' 9".

^[2]No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt.

^[3]Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and weight. ^[4]Always check entire surroundings before backing up.

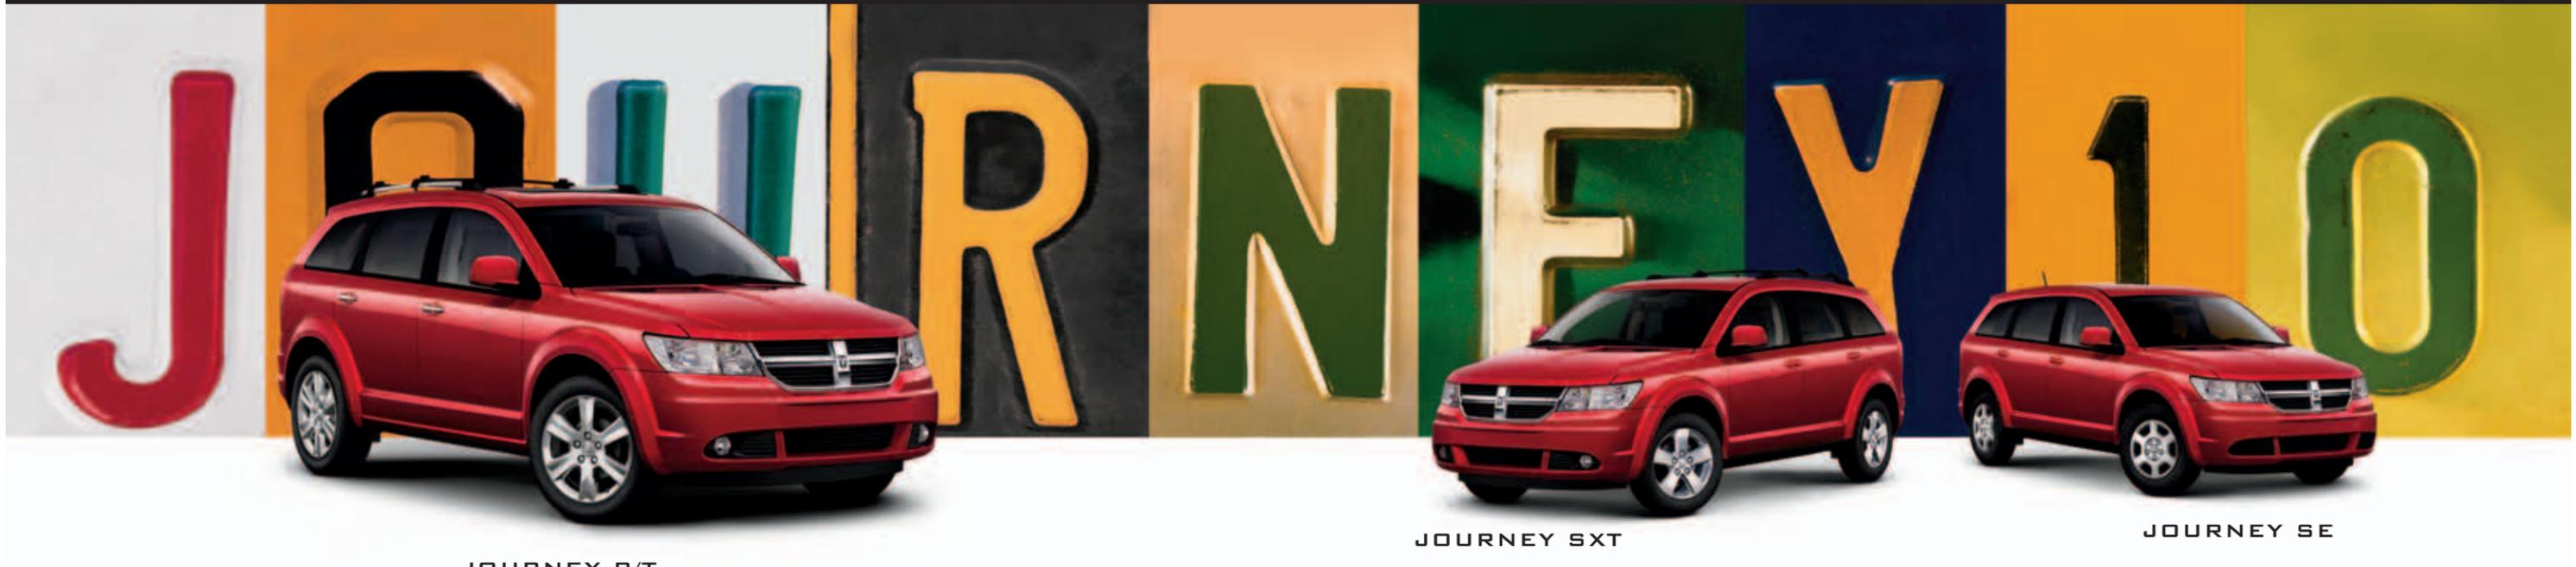

DODGE JOURNEY'S STANDARD FOUR-WHEEL DISC BRAKES USE STATE-OF-THE ART ELECTRONICS TO HELP PREVENT WHEEL LOCKUP FOR IMPROVED STEERING UNDER EXTREME BRAKING OR SLIPPERY CONDITIONS.

ADVANCED MULTISTAGE DRIVER AND FRONT-PASSENGER AIR BAGS,⁽³⁾ SUPPLEMENTAL SIDE-CURTAIN AIR BAGS⁽³⁾ FOR ALL THREE ROWS, AND DRIVER AND FRONT-PASSENGER SUPPLEMENTAL SIDE MOUNTED AIR BAGS⁽³⁾ ARE STANDARD.

AVAILABLE PARKVIEW[®] REAR BACK-UP CAMERA⁽⁴⁾ DISPLAYS AN ACCURATE VISUAL REFERENCE OF WHAT IS BEHIND YOUR VEHICLE WHEN JOURNEY IS IN.
