

2016

NX

INTRODUCING THE 2016 NX

NX 200t

235-horsepower,¹ 2.0-liter turbocharged direct-injection gasoline engine; aggressive exterior design including an iconic Lexus spindle grille, LED daytime running lights and optional 18-inch wheels²; available Remote Touchpad³; and bold interior styling. Front-wheel drive or available all-wheel drive.

NX 200t F SPORT

Turbocharged performance, exclusive F SPORT features including an F SPORT-tuned suspension, bold front fascia with exclusive mesh grille, black exterior mirrors, G-force and turbo-boost gauges, paddle shifters, machined-finish wheels and F SPORT seats with enhanced bolsters. Front-wheel drive or available all-wheel drive.

NX 300h

Lexus Hybrid Drive System with a 2.5-liter Atkinson-cycle engine and 33-MPG combined rating⁴ (FWD), concealed exhaust tips, active damping control for superior ride comfort and handling response, and available Premium Triple-Beam LED headlamps. Front-wheel drive or available all-wheel drive.

FIND YOUR EDGE.

There's progressive design, and there's design that's pushed to the leading edge. That's where you'll find the NX. From the technological innovations of the turbocharged NX 200t, to the dynamic design of the F SPORT, to the exceptional combined fuel economy rating⁴ (FWD) of the Hybrid, the Lexus NX goes beyond everything you thought a crossover SUV could be.

MULTIFACETED PERFORMANCE

Going beyond utility means looking at everything from a different angle. From the exterior design, where faceted lines flow dramatically from edge to edge. To the interior, where you'll be connected to intuitive technologies and surrounded by purposeful design.

Proving there's more than one way to elicit a reaction, the 2016 NX offers multiple levels of performance.

The 235-horsepower,¹ turbocharged NX 200t offers eye-opening acceleration, while the NX Hybrid boasts efficiency that's as desirable as its styling. And, for those who crave added adrenaline, the NX 200t F SPORT invigorates the driver and commands the road with a more dynamic sport-tuned suspension, a distinctive front fascia, and steering-wheel-mounted paddle shifters that help you make the most of the turbocharged engine.

Combining head-turning style with a highly efficient 33-MPG combined rating⁴ (FWD), the NX Hybrid pushes innovation to new heights. In addition to a more refined ride offered by its exclusive damping control system, it boasts available full LED headlamps and striking rear LEDs that ensure you're noticed—coming or going.

A NEW DIMENSION.

CAPTIVATING DESIGN

Stunning from the most dramatic exterior line to the smallest interior detail, the NX makes a statement that can't be ignored. Outside, you'll find unique door-handle LEDs that offer a sophisticated invitation to the cabin. While, inside, bolstered seating holds you tightly in place through every curve.

OF STYLE

Offering a more contemporary take on craftsmanship, the NX pairs distinctive stitching along the seating and sculpted dash with striking details like brushed metallic accents. Balancing its modern style with refined luxury, available amenities like perforated leather trim and a heated leather-trimmed steering wheel provide comfort as stirring as its design.

The NX offers a whole new way to experience the everyday. Passengers will enjoy the ample legroom of its stadium-like rear seats that offer available first-in-class⁹ power-folding and -reclining⁶ functionality. Up front, available heated and ventilated front seats have separate heaters and fans in the seat cushions for a more personalized level of comfort. Going even further beyond the expected, an available expansive moonroof with unique outer-sliding design provides an impressive feeling of spaciousness while allowing more interior headroom than conventional moonroofs.

WIDE-OPEN POSSIBILITIES

Whether you're enjoying the convenience of its five-door access or strapping gear to the available cross bars and roof rails,^{7,8} the NX is the ideal companion for any urban adventure. A folding and reclining⁶ rear seat with 60/40 split helps you make the most of the 54.6 cubic feet (53.7 cubic feet in NXh) of cargo area,^{9,10} where you'll also find an auto-retracting tonneau cover. And with the available power rear door, you'll find your NX is always ready for whatever the future holds.

TURBOCHARGED POWER

While some automakers outsource their turbochargers, Lexus engineers spent years researching, developing and refining the turbocharger in the NX 200t. Making the most of every cubic inch of its 2.0-liter engine, it relies on advanced twin-scroll technology and the ability to seamlessly move between conventional and Atkinson cycles, pairing quick acceleration with greater efficiency.

EFFICIENCY THAT EXHILARATES

33-MPG-RATED HYBRID

The NX doesn't just take design to new heights. Building on our history of providing industry-leading eco-technologies, the NX 300h is the latest Lexus to raise the bar in the hybrid category, boasting a remarkable 33-MPG combined rating⁴ (FWD) and virtually seamless acceleration. This is the new face of innovation—delivered in a striking package.

ALL-WEATHER DRIVE

There's no need to sacrifice style—or opportunity—when you have the Lexus all-wheel drive system. With available AWD, the NX and NX F SPORT keep the door to opportunity wide open by monitoring vehicle and road conditions to predict your path. If wheelspin is detected, it can deliver up to 50% of available torque to the rear wheels. On the NX Hybrid, the available electronic AWD system features an additional electric motor to deliver instantaneous torque to the rear wheels, only when it's needed.

INNOVATION THAT CAPTIVATES.

Providing a fresh perspective on the road ahead, the NX offers a variety of attention-grabbing elements including Premium Triple-Beam LED headlamps. They introduce a dramatic theme of style with functionality that continues inside, where a full-color LCD display within the gauge cluster enables you to view incoming calls, current song titles and more. These are just a few among many innovations that command your attention today—and attend to your commands tomorrow.

THE NEXT LEVEL OF CONNECTIVITY

Lexus Enform,¹¹ our available suite of branded connected services, consists of five products, each of which offers unique ways to enhance the driving experience. With a complimentary first year of service—entertainment, convenience and peace of mind are now within reach.

SAFETY CONNECT

Lexus Enform Safety Connect¹² offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you're involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle's GPS location.

SERVICE CONNECT

Our new Lexus Enform Service Connect¹³ offers remote access to information about your vehicle's status and maintenance needs. Easily accessed through LexusDrivers.com or the My Lexus and Beyond mobile app, you can get information on everything from your vehicle's fuel level and mileage to maintenance alerts and vehicle health reports.

REMOTE

The Lexus Enform Remote¹⁴ mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle's location in a parking lot. And, should you loan your Lexus to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

DESTINATIONS

Lexus Enform Destinations¹¹ offers convenient 24-hour, en-route navigation assistance from a live response center agent who can help you find locations and automatically upload the destinations to your available Navigation System.¹⁵ Planning a trip? You can also search, save and upload destinations from the comfort of your home or office.

APP SUITE

The Lexus Enform App Suite¹¹ offers access to your favorite mobile applications through your vehicle's center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, place restaurant reservations and buy movie tickets—all from the center-console display.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad^{®16} apps like FaceTime.^{®17} Learn more about these complimentary services at lexus.com/specialists.

LEXUS PREMIUM SOUND SYSTEM

Immerse yourself in dynamic sound with the available 10-speaker Lexus Premium Sound System. Featuring HD Radio,^{TM18} you'll experience exceptional sound on more than 2,000 stations. Like a song that's playing but missed the artist or name? With radio caching, you can replay up to the last 20 minutes of content or simply tag the song to automatically remind yourself the next time you connect to iTunes.^{®19}

BLIND SPOT MONITOR

To help you change lanes with confidence, the available Blind Spot Monitor²⁰ is designed to detect and warn you of vehicles approaching or positioned in the adjacent lanes. And when you're backing out of a parking spot, the Rear Cross-Traffic Alert²¹ is designed to notify you of approaching vehicles that might be out of camera view.

PRE-COLLISION SYSTEM

The available Pre-Collision System²² (PCS) is engineered to detect an imminent frontal collision and, while retracting the front seatbelts, automatically prepares Brake Assist²³ to help provide increased braking pressure the moment you step on the brake pedal.

TAMING THE URBAN JUNGLE.

DYNAMIC RADAR CRUISE CONTROL

To help you maintain a preset distance from the vehicle traveling ahead, the available Dynamic Radar Cruise Control²⁴ uses radar technology to detect the speed of the vehicle in front of you. If your NX gets too close to the vehicle ahead, the throttle is automatically reduced and the brakes are applied. As soon as the road ahead clears, the NX returns to its preset speed.

BACKUP CAMERA WITH GRIDLINES

The NX backup camera²⁵ features dynamic gridlines so you can see your approximate path when turning the steering wheel. And available Intuitive Parking Assist²⁶ utilizes sensors located on the bumpers to send visual and auditory warnings to indicate when and where the NX is in close proximity to other cars, making parking a breeze.

REMOTE TOUCHPAD

Equal parts functionality and form, the available Remote Touchpad³ is more than a way to access multimedia, climate control and more. Featuring ample touch surface area, pulsation feedback and intuitive operation via pinch, swipe and flick gestures just like your smartphone, the touchpad found in the NX offers innovation at your fingertips.

SUBSCRIPTION-FREE TRAFFIC AND WEATHER

To help you arrive sooner, Lexus provides an industry-first subscription-free Traffic and Weather service¹⁸ with standard HD Radio.¹⁸ This feature offers up-to-date information on road congestion and changing weather conditions on the main display.

3-D NAVIGATION

This available voice-activated system¹⁵ can map millions of points of interest across the country and can display information in English, French and Spanish. And, in addition to offering up-to-date traffic and weather information,¹⁸ 3-D city views, and simulated views of approaching highway junctions, it can display the current speed limit and can automatically identify nearby fuel stations if you begin to run low on fuel.

BLUETOOTH® AUDIO

In addition to easily transferring phone numbers to your vehicle, and placing and ending calls with the touch of a button, Bluetooth²⁷ audio technology offers the convenience of accessing and controlling your compatible device's entire music library and even streaming audio from websites and apps—all while your device remains in your pocket or purse.

SIRI® EYES FREE

The innovative Siri Eyes Free²⁸ connects with your compatible iPhone,¹⁶ enabling you to access e-mail, send text messages and more. The Siri feature can also search your portable music collection and use the results to create customized playlists.

F SPORT

For those with a passion for more power and performance, the NX F SPORT delivers. Putting a bold stamp on the already cutting-edge design of the NX, the F SPORT adds a more responsive sport-tuned suspension, a dynamic front fascia with signature mesh grille, and a variety of performance upgrades. While braced in the driver's seat, exclusive G-force and turbo-boost gauges further intensify the thrilling driving experience.

MILES BEYOND BOLD.

F SPORT INTERIOR

Pushing boundaries even further, the NX F SPORT offers an exclusive, race-inspired interior with deeply bolstered front sport seats, contrast stitching, and an F SPORT perforated leather-trimmed steering wheel and shift knob. It's pure invigoration—for all the senses.

FORGE A STRONGER CONNECTION.

Holding corners as easily as it holds your attention, the NX F SPORT features an exclusive suspension tuned by the same team behind the LFA supercar. For added engagement, paddle shifters on the steering wheel help you make the most of its turbocharged engine. And, complementing the exhilarating performance of the vehicle itself, a throaty engine note adds even more excitement when pushing the NX F SPORT to its limit.

ACCESSORIES

- A **ALL-WEATHER FLOOR MATS**²⁹
Durable channels help keep moisture, dirt and debris from marring the carpet.
- B **BODY-SIDE MOLDINGS**
With a high-quality body-color finish, these help protect from scratches and dents.
- C **ILLUMINATED DOOR SILLS**
Illuminated door sills include a protective, stainless-steel overlay.
- D **F SPORT 19-IN SPLIT-SIX-SPOKE ALLOY WHEELS**^{2,30}
Add a bold technical design to the aggressive lines of the NX.
- E **ROOF RAIL CROSS BARS**^{7,8}
Enjoy versatility with lightweight, high-strength aluminum cross bars.

MPG COMBINED RATING⁴
(FWD)

WARRANTY Four-year/50,000-mile Lexus Limited Warranty, Six-year/70,000-mile Powertrain Warranty, Six-year/unlimited-mileage Corrosion Perforation Warranty, Eight-year/100,000-mile Hybrid System Warranty. All warranties with zero deductible. See the *NX Warranty and Services Guide* at your Lexus dealer for details.

DISCLOSURES **1.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **2.** 17-, 18- or 19-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles (17-in) or 15,000 miles (18-in or 19-in), depending upon driving conditions. **3.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. **4.** 2016 NX 300h (FWD) EPA 35/31/33 city/hwy/combined mpg ratings. Actual mileage will vary. **5.** Based on Entry Level Crossover segment. **6.** Do not allow passengers to sit in a seat that has been fully or severely reclined while driving. This feature is intended for use only when the vehicle is parked. While the vehicle is being driven, all vehicle occupants should have the seatback upright, sit well back in the seat and properly wear the seatbelts provided. In the event of a collision, the more the seat is reclined, the greater the risk of death or personal injury. See *Owner's Manual* for additional information. **7.** Roof rack with rails not recommended for luggage. **8.** Roof rack capacity is limited. See *Owner's Manual* for details. **9.** Cargo and load capacity limited by weight and distribution. **10.** Maximum possible cargo and load capacity indicated. **11.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See lexus.com/enform for details. **12.** Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See lexus.com for details. **13.** Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity. **14.** Use only if aware of circumstances surrounding the vehicle, and it is legal & safe to do so (e.g., car uncovered in open area, no people or pets in or nearby). If vehicle has not been driven for over a week, services will not be available until next time vehicle is started. Functionality depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & *Owner's Manual*. Data charges may apply. Registration, app download are required. Must have active Safety Connect subscription. Annual fee required after 1-year trial. **15.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available at an additional cost from your dealer. See *Navigation System Owner's Manual* for details. **16.** iPhone® and iPad® are registered trademarks of Apple Inc. All rights reserved. **17.** FaceTime® is a registered trademark of Apple Inc. All rights reserved. **18.** HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. **19.** iTunes® and iPod® are registered trademarks of Apple Inc. All rights reserved. **20.** Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, see *Owner's Manual*. **21.** Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see *Owner's Manual*. **22.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See *Owner's Manual* for further information. **23.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions. **24.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See *Owner's Manual* for details. **25.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. **26.** Do not rely exclusively on the Intuitive Parking Assist system. Always look over your shoulder and use your mirrors to confirm clearance. System effectiveness depends on many factors. See *Owner's Manual* for details. **27.** Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage & carrier. **28.** Always drive safely, obey traffic laws and focus on the road while driving. Siri® is available only on iPhone® 4s or later, iPad® with Retina® display, iPad® mini, & iPod® touch (5th generation) and requires Internet access. Siri® is not available in all languages or all areas, and features vary by area. Some Siri® functionality and commands are not accessible in the vehicle. Data charges may apply. See apple.com & phone carrier for details. **29.** To avoid potential interference with pedal operation, do not install a floor mat on top of an existing floor mat, and each mat must be secured with its fasteners. This floor mat was designed specifically for use in this model and model year vehicle and SHOULD NOT be used in any other vehicle. **30.** F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. F SPORT Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F SPORT Accessories. These warranties do not cover maintenance services such as replacement of brake pads/linings and clutch linings or noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F SPORT Accessories warranty, the new-vehicle warranty or both. F SPORT is a trademark of Toyota Motor Corporation. Products available through participating Lexus dealers. **31.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **32.** 2016 EPA-estimated ratings. Actual mileage will vary. **33.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **34.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. **35.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See *Owner's Manual* for further information/warnings. **36.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See *Owner's Manual* for further details. **37.** Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. **38.** Lane Departure Alert is designed to read lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See *Owner's Manual* for more information. **39.** Please consult your Lexus dealer or *Owner's Manual* for towing and load specifications. **40.** Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Calculated with the new SAE J2807 method.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
