Limited and Custom models offer different levels of refinement. Whether you choose a LeSabre Custom Coupe or Sedan, a LeSabre Limited Coupe, or a LeSabre Limited Sedan, you’re always sure of first-rate value. That’s a Buick tradition.

If a traditional, yet contemporary, full-size car is what you want, and you’re not willing to sacrifice anything in the pursuit of comfort, the 1984 Buick LeSabre is exactly the car you’re looking for.

The Buick LeSabre makes a lot of sense to a lot of people. The reason for that may lie in its combination of family car and luxury car attributes.

First of all, LeSabre is sensible, offering generous space for six passengers. Yet, LeSabre really doesn’t look like a family car.

B U I C K  L e S A B R E
L I MI T E D  C O U P E.
I T  R E A L L Y  M E A S U R E S  U P.

Below is the LeSabre Limited Coupe. It offers room for six adult passengers and over 20 cubic feet of trunk space. Inside, the LeSabre Limited’s standard equipment includes a two-way adjustable power driver’s seat, additional acoustical materials for quiet, and elegant, electro-luminescent lighting for the instrument panel. With beautiful, dash-covered 50/50 split bucket seats, the seating arrangement is elegant, too. Carpeting continues the luxury right down to the floor. But luxury in an automobile means little without the power to back it up. The LeSabre offers power in an engine lineup that includes the standard 3.8 litre V-6, plus a 5.0 litre V-8, and a 5.7 litre diesel V-8. The 3.8 litre and 5.0 litre feature a 4-speed automatic transmission as standard equipment. However, a four-speed automatic transmission with overdrive is available for all optional engines. On the highway, the overdrive ratio reduces engine speed and, of course, fuel consumption. Diesel engines are equipped with a Cold Climate Package, which features two heavy-duty batteries to assist in cold-weather starting. Comfort, Roominess, Dependability. Good looks. It isn’t hard to understand LeSabre’s success.

In Canada, it’s a great family car.
BUICK LeSABRE INTERIORS.
LUXURIOUS LIVING SPACE.

There's full-size room for six in every LeSabre, and passengers will find their quarters highly inviting. Standard fare in the LeSabre Custom models is notchback seating in cloth velour with a woven fabric trimming. Limited models have individually adjustable 55/45 split notchback seats (shown left) with plush velour cloth upholstery. All LeSabre seats have full-foam construction to ensure your comfort.

LeSabre models have been appointed with many elegant standard features. There's cut-pile carpeting; a multi-function control lever for the turn signals, headlamp high/low beam, windshield wipers; and an instrument panel with the look of real wood, plus easy-to-read instrumentation.

The LeSabre's lengthy options list lets you outfit your car as you please. How about six-way power seats for the driver and the front-seat passenger? Electric front seat-back recliners are also available. Consider power windows and electric door locks. For relief from the elements, you can order Electronic Touch Climate Control air conditioning, which maintains the temperature you pre-select, rain or shine. Get Electronic Cruise Control with resume and acceleration features to make any highway drive more pleasurable. And one of the many optional radios or radio/tape combinations, including the new Delco ETR 2000 Series, will add to the effect.
### 1984 LeSABRE FACTS & FIGURES

Select the combination of "extras" that make your Buick uniquely yours from the long list of standard and available features, some of which are given below. Ask your dealer about group packages and the many other features not indicated below. Your dealer will also advise you of the availability of the various items on the model of your choice.

- Starter safety switch
- Dual arm safety hood latch
- Low glare finish on instrument panel top, inside windshield moldings, wiper arms and blades, and steering wheel metallic surfaces
- Safety roof road rails
- Front disc brakes with audible wear indicators
- Self-adjusting brakes
- Illumination of heater and defroster controls on instrument panel
- Illumination of windshield washer and washer controls (when located on instrument panel)
- Pressure relief fuel cap
- Treat-wear indicators on tires

### A word about assembly, components, and optional equipment in these vehicles

The vehicles described in this brochure are assembled at various Divisions of General Motors Corporation. These vehicles incorporate thousands of different components produced by General Motors Canada Limited and related companies and their suppliers. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emission and safety requirements or fuel economy guidelines, or for other reasons, to produce vehicles with different components or differently sourced components than initially scheduled. All such components have been approved for use in our products by General Motors of Canada Limited or related companies and will provide the quality performance associated with our name.

Please note that certain optional equipment can be ordered only in conjunction with other optional equipment.

### MODEL LINEUP

**LeSabre Custom**—4-Door Sedan
**LeSabre Limited**—2-Door Coupe/4-Door Sedan

Wouldn't you rather have a Buick?
Look at GM today.

A lot of new thinking has gone into GM products. New thinking aimed at completely satisfying you.

Our products are designed to slip through the wind with energy saving ease.

Optic scanners and robotics are used to build a new kind of precision.

From foundry to assembly, our people use lasers and gamma rays to monitor the building process.

At GM, we are determined that when you buy our product, you'll be more satisfied than the buyer of any other vehicle, built by any other manufacturer anywhere in the world.

Today, we are making history in aerodynamic design, quiet rides, fuel economy and more. Leaf through this catalogue and you'll see what we mean.

At GM, our products are changing. So is our thinking. Look at GM today.

FOR YOUR PROTECTION

New Vehicle Limited Warranty—This warranty covers any repairs needed during the basic coverage period due to defects in material or workmanship. Any required adjustments will also be made during the basic coverage period of 12 months or 20,000 kilometres, whichever comes first. The complete vehicle, except tires, is covered during this period.

Powertrain Coverage—This powertrain warranty covers gasoline engine and other powertrain components up to a total of 24 months or 40,000 kilometres, whichever comes first. This powertrain warranty also covers specific diesel engine components to 36 months or 80,000 kilometres, whichever comes first. All powertrain warranty repairs are subject to a $100 deductible for each repair visit.

Corrosion (Rust-Through) Coverage—General Motors warrants 1984 passenger cars, light duty trucks and vans that your General Motors dealer will repair or replace at no charge any body sheet metal panel found to have developed perforation (rust-through) due to corrosion. This warranty begins on the date the vehicle is first delivered or put in use and extends for 36 months, regardless of distance travelled by the vehicle.

Battery Coverage—If your battery should fail under normal service due to a defect in material or workmanship after the basic coverage period expires, but before the vehicle has been in use 36 months, it can be replaced on a pro rata adjustment basis for a new Delco battery. The pro rata adjustment price of the new battery will be based on the number of months the original battery was in use since the start of the new vehicle warranty.

Contact a dealer handling your vehicle for further details on such adjustments.

Owner Assistance—The satisfaction and goodwill of owners are of primary concern to GM dealers and General Motors of Canada Limited. In the event a warranty of some other matter is not handled to your satisfaction, the following steps should be taken:

1. Contact the General Motors Service Manager at your dealer.
2. Contact the General Motors Zone Office closest to you as listed in the Owner Assistance Section of your Owner's Manual.

Special Policy Adjustment Program Beyond the Warranty Period—General Motors is proud of the protection afforded by its warranty coverages. In order to achieve maximum customer satisfaction, there may be times when General Motors will pay all or part of the cost of certain repairs beyond the terms of the warranty. Check with your General Motors dealer or the nearest G.M. Zone Office regarding General Motors participation in the cost of such repairs.

Continuous Protection Plan—While there are many service contracts available on the market today, there is only one continuous protection plan available from General Motors. It is the one with the GM Continuous Protection Plan logo shown. This logo on all Plan materials assures you that the service contract you are buying is the GM Plan, the finest such program available to GM owners. The GM Continuous Protection Plan provides optional added mechanical and electrical repair protection during and after the new vehicle limited warranties. Ask your General Motors dealer for details and information about the genuine GM Continuous Protection Plan.

Let's get it together. Buckle up

Diesel World Leaders in Diesel Power.
