There's still only one Electra T Type.
But now it's available in four color schemes.

The Buick Electra T Type is still a unique automobile.

It combines the traditional room, comfort and luxury of Electra with a 3.8 litre multi-port fuel injected V-6 and amazingly nimble road manners — as well as a very distinctive and purposeful look.

Now, the Electra T Type is available in four color schemes: black, silver metallic, dark gray metallic and white.

No matter which you choose, you'll have a unique automobile.

Black

Silver Metallic

Dark Gray Metallic

White
No matter which color you order, the interior is color-coordinated.

That’s partly because, no matter which color you order, the Electra T Type’s interior comes in a compatible, distinguished shade of gray. The standard interior has gray cloth trim, whereas the available interior (shown at right) offers gray leather seating surfaces.

Either way, you’ll be surrounded by controls that are within easy reach, and instruments that are easily visible. You’ll feel that everything in the automobile is designed to work together: naturally.

And it does. Because it’s a Buick Electra T Type.
Model Availability
Electra T Type Coupe—F11
Electra T Type Sedan—F69
