HOW TO BUY A HOT BUICK.
(A SIMPLE MATTER OF EXERCISING YOUR OPTIONS.)

BUICK
If you're head has ever been turned by a car that says "Dreamer" all over it, then you're ready for the latest good news from Buick.

The news is that you can build yourself a Buick that meets your expectations right down to the last bit of trim and performance. And you can do it without having to order every little detail. The people at Buick, with their true thinking about details, have anticipated your preferences and have got together special Touring Option packages to fulfill your ordering.

Want to change the chrome and go with the black? Just specify the Blackout Trim for your Buick. This package includes a leather wrap sport steering wheel and interior door panels. You can also order the Turbo Package. It features a turbocharged engine with a turbocharger and intercooler. The Turbo Package is available on all Buick models.

Also offered in this booklet is the Touring Option package, which includes an exterior and interior trim package. The Touring Option package includes a special exterior trim package with chrome accents, a special interior trim package with leather accents, and a special audio system with a CD player.

The Touring Option package is available on all Buick models except the Riviera. It is also available on the LeSabre Limited and Electra Limited models.

A word about this catalog

We have tried to make this catalog as comprehensive and factual as possible, and we hope you find it helpful. However, since the time of printing, some of the information you will find here may have been updated. Also, some of the equipment shown or described throughout this catalog is available at extra cost. Your dealer has details, and before ordering, you should ask him to bring you up to date.

The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models. Check with your Buick dealer for complete information.

A word about assembly, components and optional equipment in these Buick products

The Buicks described in this catalog are assembled at facilities operated by General Motors or GM of

Canada. These vehicles incorporate thousands of different components produced by car and truck groups and various component divisions of GM and by various suppliers worldwide to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, to meet federally mandated emissions, safety and fuel-economy requirements, or for other reasons, to produce Buick products with differently sourced components than initially scheduled. All such components have been approved for use in Buick products and will provide the quality performance associated with the Buick name.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest that you verify that your car includes the optional equipment you ordered, or if there are changes, that they are acceptable to you.

A word about updated service information

Buick regularly sends its dealers useful service bulletins about Buick products. Buick monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins too. Ask your dealer. To get ordering information, call toll free 1-800-551-4123.

A word about engines

Buicks are equipped with engines produced at facilities operated by GM car groups, subsidiaries or affiliated companies worldwide.

A word about the Buick Product Information Center

If you are interested in further details about the contents of this catalog or any Buick product, we have developed a personal, informative communication service called the Buick Product Information Center. For information, call toll free 1-800-87-BUICK (1-800-872-8425). We can tell you everything you need to know to make an informed decision to buy.
