MODERN TO
THE MINUTE
1939 Genuine Chevrolet Accessories
PERSONALIZE YOUR CAR
WE BELIEVE that you, as the owner of a new 1939 Chevrolet, will find this booklet both interesting and helpful. That is why we suggest not only that you give it your attention now, but that you keep it for future reference.

As you glance through the pages that follow, you will find suggestions covering practically everything that might add to the satisfaction and enjoyment you derive from your new Chevrolet. No doubt your car is already equipped with some of the items offered. However, from season to season, there will be added equipment and accessories that you will want and need for increasing the pleasure of driving—and for keeping your car always smart and attractive in appearance.

Every article shown in this book is "modern to the minute." It has been correctly engineered, tested and manufactured—so that you can be positive that it is both best for your car—and the best value you can buy anywhere!

Note, too, the final pages in this booklet. They contain valuable recommendations for keeping your car in the best operating condition—efficient and economical at all times.
Suggestions for Adding to the Safe Operation of Your Car
FENDER MARKER—The low, comfortable driver’s seat in modern automobiles has popularized this attractive and useful accessory. By indicating the position of the outer edge of the fender, it saves fender bumps and repair bills. Finished in green, black and chrome, it is also a stylish ornament for the car. Price, each $1.00

PEEP MIRROR—A 3 1/2-inch miniature of larger mirrors of this type. Eliminates the “blind spot” at the rear of the driver’s side of the car. Swivel joint permits full adjustment: fits close to the car, reducing wind resistance. Chrome-plated case and bracket. Price $1.50

OUTSIDE REAR-VIEW MIRROR—Some prefer this 4 1/2-inch bracket-mounted mirror. Like the peep mirror, it offers important safety advantages when making turns or passing cars, and when pulling away from the curb in traffic. Full chrome case and bracket. Right- and left-hand types. Price, each $1.95

SAFETY REFLECTOR—A popular safety device for the rear of the car that gives a brilliant red warning when headlamp beams strike the reflector surface. Price $1.25

HEADLIGHT INDICATORS—A small, helmet-shaped fitting that attaches to the top of headlamps. When lights are burning, a small red signal is visible to the driver. When headlamps fail, the signal light disappears—warning the driver. Installed on your car, they appear to be a decorative part of the headlamps—chrome-finished to match. Price, per pair $1.00

WINDSHIELD WASHER—For maintaining safety with a clean windshield, by the removal of mud and dirt splattered by other cars, and by the removal of bugs and dust film. Water supplied from a tank mounted under the hood is forced by vacuum to the windshield. To operate, the driver simply depresses a button on the dash and turns the windshield wiper control button. Refilling of the water supply tank is the only attention required. Price $4.75

RAIN AND SUN SHADES—Combination rain deflectors and side-window sun shades. They permit ventilation during severe rains by excluding water, and also serve as permanent exterior sun visors. Sizes to fit all windows. Can be finished in black or to match the color of your car. Price, per set:
- Coupe models $3.50
- Sedan models $7.00

GRILLE AND TRUNK GUARDS—Present-day traffic and parking conditions demand extra front-end and rear-end protection. The radiator grille guard is mounted on the bumper (at the center) and is strongly braced—giving five times the protection of unbraced guards. A similar guard is available for the rear of the car. Equipped with release lever, for tilting, to open trunk.
- Prices: Grille Guard $2.50
- Trunk Guard 2.75
DOUBLE-DUO HORN—For city driving—a courtesy warning! For the open road—a safety warning! The matched double-horns have long-distance carrying power—commanding but pleasing. The control switch, at the right, is mounted on the dash—the horns under the hood. Price $9.50

NO-ROLL DEVICE—A mechanism designed for safer operation on hills. It holds the car on hillsides even when the foot is removed from the brake pedal. Brakes are released as the left foot is removed from the clutch pedal—leaving the right foot free to operate the accelerator. Quickly installed. Nothing new to learn. Price $7.95

LOCKING GAS TANK CAP—This gasoline tank cap affords protection against gasoline and car thieves. If your car is stolen, it can be driven only the distance your gasoline supply will permit, as refilling of the tank is impossible with this strong lock. Chromium finish. Price $1.50

DRIVING GLASSES—Choose from four smartly-designed styles, including the “hook-over” type for use with clear-lens eyeglasses. All have the famous Solarex lenses. Price $0.49 to $1.50

ENGINE HEAT INDICATOR—A valuable addition to the instrument panel of Chevrolet Master “85” models. The exact temperature of the engine is visible to the driver at all times, serving as an important safety guide during extreme hot or cold weather. Price $2.50

VENTIPANE INSECT SCREENS—Insects that get into the car are disturbing—sometimes cause accidents. Keep them out by covering the panes of your No Draft system with screens—heavy, close-woven screen in a strong metal frame. Installed or removed in a moment. Price per pair $1.75

BUMPER GUARDS—In traffic, or when your car is parked, bumper guards save both trouble and expense. They are designed to prevent locking of bumpers and damage to fenders and other sheet metal parts. For Chevrolet Master “85” models. Price per set of four $3.95
HORN BLOWING RING—It permits you to sound your horn without removing a hand from the steering wheel. A definite safety advantage—especially when passing cars in crowded traffic, or on slippery or gravel roads. Made of strong steel, and finished to match the car interior. Price $2.50

BACK-UP LAMP—A dash-controlled flood light for the back of your car that illuminates the driveway or other dark, confined areas, removing the danger of collision with unseen objects. Designed to fit at the base of the left-hand tail lamp. Price $2.50

GLARE SHIELD—A sun shade that attaches to the inside visor. Protects against sun glare and headlamp glare. The shade is made of transparent, amber-colored Pyro- lin; restful to the eyes; gives clear vision; adjustable to every angle. Price $1.00

FOG LAMP—A large-diameter amber-colored lens diffuses a penetrating light over a wide area and reduces the hazards of driving through snow, fog, rain or dust. Installed on the bumper. Exterior case is attractive chrome finish. Price, each $4.25 per pair $8.25

SAFETYLIGHT—This powerful lamp throws a \( \frac{1}{4} \)-mile beam. Turns in any direction. Insures safer travel; convenient for reading road signs, house numbers, etc. Controls inside of car, within easy reach of driver. Chrome finished. Price, complete $12.50
Suggestions for Making Your Car More Distinctive in Appearance
FENDER LAMPS—The bullet-shaped, streamline design of these smart fender lamps harmonizes with the streamline design of the new Chevrolet. They are extremely colorful accessories for the car; use a minimum of battery power; and their location affords real protection to the fenders of your car when it is parked at night. Price, per pair $6.60

COWL VENTILATOR CONTROL BALL—GEAR-SHIFT BALL—The cowl ventilator control ball (above) and the gear-shift ball (right) are ornamental items for "dressing up" the interior of the car. They are made of a beautiful translucent material, colored to match other interior fittings of the 1939 Chevrolet.

PRICES
Cowl Ventilator Control Ball $0.35
Gear-Shift Ball 0.50

WHEEL RINGS—Another highly popular accessory with car buyers who want their Chevrolet to be strikingly different in appearance. Wheel rings are wide bands of stainless steel that conform to the shape of the wheel rim. They are finished with durable, lustrous chromium, and make the wheels look smaller and the tires more massive—a highly desirable effect. Price, per set of five $6.95

6-TUBE DE LUXE SINGLE-UNIT RADIO—A medium-priced radio incorporating practically every feature of the most advanced high-priced sets.

FEATURES
Instant Automatic Tuning (5-button) Simplified Station Adjustment (easy-to-make, "push-button" station changes)
Instrument Panel Speaker
Tone Control (on instrument panel)
Tone Compensation (gives desired balance of high tones and bass tones at all car speeds)
Automatic De-Tuning Compensation (prevents "off-tone" performance)
Non-Synchronous Vibrator (longer-life vibrator)
Antenna Adapter (provides maximum performance with all types of antenna)
Vertical-Slide Full-Vision Dial (illuminated)
Choice of Antennas (running board, Turret Top or telescoping whip types) Price $47.95

RUNNING BOARD ANTENNA—For car buyers who prefer an antenna that is not visible, Chevrolet has developed this running board type. All parts are heavily insulated with rubber to protect them against flying stones, etc. Price $5.00

*Included without extra cost on Chevrolet Super De Luxe and De Luxe Radios shown on this page and the opposite page.
5-TUBE SINGLE-UNIT STANDARD RADIO—The leading low-priced car radio value... incorporating many of the latest car radio developments. Thoroughly reliable performance.

FEATURES
Automatic Tuning (5-button)
Non-Directional Speaker (mounted on bottom of case)

5 Dual-Purpose Tubes (giving performance equal to household sets with 7 or 8 tubes)
Non-Synchronous Vibrator (longer-life vibrator)
Automatic De-Tuning Compensation (prevents “off-tone” performance)
Single-Unit Construction (entire unit mounted back of instrument panel)
Wave Trap (increases selectivity and reduces interference)
Full-Vision Dial (indirectly illuminated)
Price............................................ $24.75

TELESCOPING WHIP ANTENNA—Specially developed by Chevrolet to meet the demand of car radio buyers who prefer the whip type of antenna. With the exception of two small installation supports, the antenna is bright, chrome-finished steel. *Price............................................ $3.50

*Included without extra cost on Chevrolet Super De Luxe and De Luxe Radios shown on preceding pages.
Suggestions for

MAXIMUM SAFETY
AND COMFORT
DURING WINTER MONTHS

DE LUXE HEATER—Regular size hot water heater, providing plenty of warmth for average winter temperatures. It has all the advanced features offered in the Super De Luxe heater, with slightly smaller heat capacity. Price.......................... $10.95

REAR SEAT HEATER—A wonderful new advancement contributing to winter comfort—an entirely separate heater for the rear seat of sedan models. There are two heat outlets—one cold air intake—providing maximum warmth for rear seat passengers. Price.......................... $11.95

CONTROLLED FRESH AIR UNIT—For bringing controlled fresh air into the car through a screened intake installed on the side of the cowl. In winter, the air is warmed in the car heater and circulated through heater defroster outlets. Provides fresh air under all conditions, with car windows closed. Price......................... $2.95

SEAT COVERS—Genuine Chevrolet seat covers fit better and wear better; retain their shape and beauty. They are comfortable in winter—cool in summer. Two types are available: Custom-Tailored De Luxe—with full high-quality San Toy seat, seat back and facings; and Super De Luxe covers—San Toy seat with cloth back and facings. Both types have leatherette top section, as shown.

7-TUBE DUAL-SPEAKER SUPER DE LUXE RADIO—The most advanced of all car radios—specially designed and built for the Chevrolet car.

**FEATURES**
- Instantaneous Magnetic Tuning (6-button)
- Semi-Automatic Station Adjustment (instant "push-button" station changes)
- Audio Fidelity Control (enriches tone)
- Bass Compensation (true bass note reproduction)
- Music and Speech Control

Vacuum-Sealed Coils (insure exact tuning permanently)
Dual-Purpose Tubes (giving 12-tube efficiency with 7-tube economy)
Automatic De-Tuning Compensation (prevents "off-tune" performance)
Twin Speakers (perfect reception at all speeds)
8-Watt Output (low battery drain)
Full-Vision Dial
Choice of Antennas (running board, Turret Top or telescoping whip types)

Price .................................. $59.95

LICENSE PLATE FRAMES—Strong, durable, chrome-finish brass frames. They protect your license plates from bending and cracking, eliminate bothersome vibration rattles, and add to the finished appearance of the car. Adjustable to any size license plates. Price, per pair ...... $1.50

LICENSE PLATE JEWELS—Combination reflector-type jewels and license plate locks. They securely fasten the plates to the license plate brackets. Sold in sets of four—two red jewels and two green jewels. Price, per set of four ... $0.39

EXHAUST PIPE EXTENSION—An attractive, chromium-plated accessory that adds another bright spot to the rear of the car. It fits over the car exhaust pipe and is locked firmly in position by means of a special clamp. Price .................. $0.50

WHEEL DISCS—The lasting beauty of stainless steel! Wheel discs completely cover the wheel to the rim. They give the impression of smaller wheels and larger tires—an effect that gives the entire car a remarkable degree of beauty. The most popular of all accessories designed to give the car extra style-appearance. Price, per set of four ...... $9.90

* Included without extra cost on Chevrolet Super De Luxe and De Luxe radios shown on this page and the opposite page.
DE LUXE STEERING WHEEL — Few accessories are more distinctive than this beautiful de luxe steering wheel. The rim is steel—strong and safe—covered with a beautifully patterned composition material. Spokes are stainless steel, and the horn button and hub are finished to harmonize with the rim. Price .................. $9.90

CAR OWNER INITIALS AND HOLDER — Your initials in lasting chrome steel! Give your car individuality and distinction by having them mounted on the license plates. These strikingly attractive initials are made of heavy die-cast metal, chrome-plated and burnished to a beautiful brilliance. Easily removed for installation on future cars that you purchase. Price (for complete installation—three initials, both front and rear) .................. $3.20

FENDER STREAMLINERS — Fender streamliners are designed to harmonize with the beauty lines of the 1939 Chevrolet. They carry out the streamline effect, adding to the general appearance of length and lowness. A sponge rubber gasket around the outer edge of the streamliner insulates against rattles. Locking devices hold them firmly in place. Price, per pair .................. $8.90
Suggestions for
Increasing

COMFORT AND
CONVENIENCE
RIGHT-HAND SUN VISOR—Gives sun glare protection for the front seat passenger as well as the driver. Cloth-covered to match the left-hand visor. Fully adjustable, to permit placing over the door window as well as the windshield. Price. $2.45

VISOR VANITY MIRROR—The mirror is 4' x 6'. Frosted glass spaces are provided for making pencil notations (erasable) of all travel and service data—mileage, oil, lubrication and battery reminders. Even the pencil is supplied. Price, each. $1.00

ARM REST—Combination arm rest and door pull. Sponge rubber, covered with leatherette and cloth to match car upholstery. Price, each (for right door, Master De Luxe models), $2.25. Price, per pair (for right and left doors, Master "85" models). $4.25

CIGARETTE HOLDER—No more searching for cigarettes—first in one pocket, then in another. Fresh, uncrumpled cigarettes give the enjoyment of a smooth, even-burning smoke. A cigarette is always ready—without reaching, automatically supplied by gravity feed. Price. $0.75

CIGARETTE LIGHTER—The popular automatic type of lighter that combines convenience and safety. Just push the lighter button toward the dash—then let go! In a moment, the button returns to normal position with a "click" to announce that your lighter is ready for use. Price. $2.00

FLASHLIGHTS—Carry a flashlight in your car for convenience and emergency needs. Choose from two popular models, both attractively priced. Shown is the "Red-Head" safety flashlight. Prices. $0.75 and $1.45

SAFETY DEFROSTER—Let heat from your heater defrost your windshield. Everything is concealed behind the dash—nothing obstructs your view. By the turn of a control button, a blower sends a wave of heat through slotted openings at the top of the instrument panel across the windshield. Price. $6.95

GENUINE G.M. ANTI-FREEZE—A thoroughly reliable solution that gives maximum protection at lowest cost. A smaller quantity goes farther—gives the margin of safety you need. Price, per gallon. $1.60

FAN DEFROSTER (Metal-Blade)—A defroster and vapor remover in the winter; a cooling fan in the summer. Gives excellent defrosting results in the heater-equipped car. Installation is made above the instrument panel near the windshield, or on the steering column handy to the driver. Equipped with safety grille. Price. $3.50

FAN DEFROSTER (Rubber-Blade)—A highly efficient three-blade fan providing the same useful advantages as the metal-blade fan shown on this page. The blades are made of strong, durable rubber—a safety feature that has given this type of fan its immense popularity. Silent in operation. Price. $1.00

OVERFLOW RETURN TANK—Save anti-freeze with this automatic overflow return tank. The anti-freeze solution is never lost, as it surges into the tank instead of "out" through the overflow pipe. The solution automatically returns to the cooling system. Price. $1.95
ELECTRIC DEFROSTER
A rubber-flanged glass panel creates a dead air space within the frame when placed against the windshield. It prevents the formation of moisture on the inside, while a series of three electric wires remove ice and sleet from the exterior of the windshield. Price... $3.00

FROST SHIELDS—An inexpensive way to procure the safety of frost-free car windows. They are made of clear glass, bordered with rubber moldings treated with adhesive to hold them in place. Three sizes accommodate all windows.
Price, each... $0.75 to $0.95

HEATER SHUT-OFF VALVE—By installing a heater shut-off valve at the time of heater installation, next summer’s heater disconnection is eliminated. Price... $0.60

RADIATOR COVER—Faster engine warm-up on cold winter days, and quicker heater results, are obtained from this smart, silver-finished, genuine Chevrolet 1939 radiator cover. On mild days the corners may be folded down and held in place with snaps. Price... $1.25

HEATER THERMOSTAT—For confining water circulation within the engine until the engine reaches a high temperature. Gives quicker heater results, quicker engine warm-up. Price... $1.00
Suggestions for Keeping Your New Chevrolet Smart in Appearance
SPOT CLEANER—Non-inflammable cleaner for removing spots of all kinds from car upholstery and other fabrics, 8-oz. can. $0.50

CHAMOIS—Selected-quality oil-tanned chamois, Cut from thick, soft, almost bent skins. Priced according to size.

RUST REMOVER—For removing rust from chrome-finished parts and painted or enamel-finished metal. Quick and effective, 4-oz. bottle. $0.35

AUTO WAX—A wax polish of excellent protective qualities. Properly applied, it produces a brilliant lustre and a surface of long-lasting durability. 7-oz. can. $0.50

BODY POLISH—Easy to apply—easy to rub. It cleans and polishes at the same time, producing a smooth, hard finish. 12-oz. can. $0.55

WAX PAD—Car and furniture polishing wax in its handiest form. The pad contains the wax! $0.25

GENERAL USE OIL—Highly refined, light-bodied oil for use on the car and for household appliances. Clop-proof, 4-oz. can. $0.25

CAR KLEEN KIT—A combination package containing body polish, chrome cleaner, tar and road oil remover, spot cleaner, sponge cleaner and polishing cloths.

COMPLETE...$2.29

QUALITY SPONGES—Excellent quality sponges for car and household use. Your choice of five selected grades and sizes. $0.23 to $1.50

CHROMIUM POLISH—A special-formula metal polish. Removes oil and surface dirt; restores the original lustre. 8-oz. can. $0.35

COOLING SYSTEM CLEANSER—A combination powder and oil treatment recommended for complete cleaning and removal of radiator scale and rust. $1.00

RADIATOR RUST PREVENTIVE—A good year-round precaution against the formation of rust in the cooling system. 4-oz. can. $0.25

DRIPLESS PENETRATING OIL—In the can it’s a liquid; when used, it changes to a long-lasting, dripless lubricant. 4-oz. can. $0.25

DOOR-EASE—Crayon-size stainless steel lubricant for door latches, hood latches and other friction surfaces. Per stick...$0.10

DOOR GASKET—Crayon-size stainless steel lubricant for door latches, hood latches and other friction surfaces. Per stick...$0.10

Genuine Chevrolet Batteries—The same dependable, long-life batteries used on standard equipment in Chevrolet cars. 18-month guarantee—two sizes: 15 plate—$9.75, 17 plate—$9.95

CHROME COATING—A transparent coating for protecting chrome-finished parts against discoloration and rust. 4-oz. can...$0.60

TAR AND ROAD OIL REMOVER—For quick dissolving of tar, asphalt, road oil and other grummy substances from automotive surfaces. 8-oz. can. $0.49

Pee Wax Cleaner—Recommended for the removal of heavy road film prior to the application of wax or body polish. Will not scratch or injure the finish. 11-oz. can. $0.50
WHITE RUBBER TIRE COATING—Self-vulcanizing rubber compound for changing black tires to white side-wall tires or for renewing the appearance of soiled white side-wall tires. 16-oz. can..........................$1.00

SPONGE CLEANER—A handy sponge-rubber cleaner for washing windows. Filled with cleaning compound that comes to the surface when used. Each.........................$0.25

WINDSHIELD WIPER BLADE—Standard, chrome-plated blade for replacement of worn, damaged or lost blades. The wiper edge is extra quality, pliable rubber, molded to the blade, and exceptionally serviceable. Price..........................$0.45

GLASS CLEANER—For quick removal of dirt and insects from windshield and windows. Spray-type applicator, including sprayer. 8-oz. bottle..................$0.50

TIRE TUBE REPAIR KIT—A handy outfit for roadside emergency repairs. Contains patches, buffer, cement and full instructions...........................................$0.25

RADIATOR STOP-LEAK—Just pour into the radiator! It makes a quick and permanent seal against minor leaks. Stays in solution. Positively harmless. 10-oz. can...................$0.49

RADIATOR INSECT SCREEN—A fine wire mesh that completely covers the radiator to keep insects from lodging in the radiator core—restricting normal cooling. Aluminum finish. Price..............................$1.00

BUMPER JACK—A simple, compact, easy-to-operate jack that lifts from the bumper. No kneeling or crawling..........................$3.95

PERIODIC INSPECTION ASSURES
Greater Safety...Greater Economy...Greater Satisfaction...

Suggested 10,000-Mile Inspection

- Complete motor tune-up
- Adjust valve lash
- Clean and adjust points and spark plugs
- Tighten fan and water pump
- Adjust generator charging rate
- Align front wheels
- Tighten chassis and body bolts
- Check and focus lights
- Adjust clutch and lubricate
- Lubricate front wheel bearings
- Repack rear spring covers
- Check brake fluid
- Check and fill shock absorbers
- Change tires all around (to insure even wear).

Suggested Vacation-Time Inspection

- Check tires and inflate to proper pressure
- Test, focus and align headlights
- Check light switches
- Test and adjust charging rate of generator
- Clean, tighten and lubricate battery terminals
- Check water and electrolyte in battery
- Check high-tension wires
- Clean and adjust carburetor, clean screens
- Blow out fuel lines and pump
- Reverse-flush cooling system
- Tighten all hose connections
- Check fan belt tension
- Clean and adjust breaker points
- Set timing
- Clean, test and set spark plugs
- Balance and align wheels
- Complete lubrication
- Drain, flush and refill crankcase
- Fill transmission and differential to proper level
- Tighten all body, chassis and motor bolts
- Test windshield wipers.

Suggested Spring Season Inspection

- Reverse-flush radiator and cooling system
- Remove rust
- Tighten water hose connections
- Test cooling system for leaks
- Repack water pump
- Adjust fan belt tension
- Clean carburetor and set for warmer-weather driving
- Blow out fuel lines and pump
- Tighten intake and exhaust manifolds
- Clean and adjust spark plugs
- Clean and set breaker points
- Check and re-time ignition
- Adjust generator charging rate for spring and summer
- Clean, tighten and coat battery terminals with petroleum jelly
- Fill battery and check electrolyte
- Check high-tension wires
- Test coil and condenser
- Test, focus and align headlights
- Check light switches
- Drain, flush and refill crankcase, transmission and differential with correct grade of warmer-weather lubricants.

Suggested Fall and Winter Inspection

- Drain and thoroughly cleanse cooling system of all rust, sludge and grease with G.M. Cooling System Cleanser
- Check radiator hose connections and hose clamps
- Protect cooling system with G.M. Radiator Rust Preventive
- Tighten fan belt
- Clean and adjust distributor points
- Clean spark plugs and space points
- Clean and adjust carburetor
- Adjust and oil valves
- Remove and clean air filter
- Clean fuel pump
- Drain, flush and refill transmission with winter lubricant
- Drain, flush and refill differential with winter lubricant
- Lubricate chassis
- Adjust and repack front wheel bearings
- Clean battery terminals and fill with water
- Check main brake cylinder for fluid
- Set octane selector for winter fuel
- Check entire electrical system
- Focus and adjust headlamps.
