At General Motors, our commitment to environmentally friendly transportation starts right at the top:

"What we do at General Motors profoundly affects the lives of many people. As the world's largest maker of cars and trucks, we realize our impact extends beyond those who drive our vehicles, who work here and who live in our communities. We also know that our actions today can positively affect the lives of future generations. It's a huge responsibility, but also a great opportunity. And that's why corporate responsibility is an integral part of everything we do at GM."

We're determined to be part of the solution to the environmental issues that we, as a global community, are facing. To that end, GM is investing billions of dollars in a broad-based advanced technology strategy to help reduce the world's dependency on oil. This includes everything from investing in E85 ethanol, plug-in hybrids, to electrically driven vehicles powered by advanced batteries and hydrogen fuel cells. We've also made steady and significant progress over the past five years to reduce our own energy use, conserve natural resources and decrease greenhouse gas emissions from GM products and facilities."

Rick Wagoner
Chairman and Chief Executive Officer, General Motors

greenbydesign.gm.ca
The 2008 DTS represents the most advanced evolution yet of one of the automotive world’s greatest concepts – the full-size Cadillac luxury sedan. DTS’s technology is among the most sophisticated in the industry, with Northstar V8 power, Magnasteer® magnetic variable assist steering and available features like StabiliTrak™ and Adaptive Cruise Control. At the same time, DTS’s impressive stature, spaciousness and sheer dynamic grace – all characteristics shared with the great Cadillac sedans of the past – endow it with a presence that few other luxury cars can even approach. The result of this confluence of technology, timelessness, and tradition? A car that’s both a timeless classic and a unique pleasure to own and drive.
DTS’s presence is unmistakable. Measuring well over five metres from bumper to bumper, DTS is one of the largest sedans on the road today. This impressive stature is accentuated by elegant geometric shapes, sweeping horizontal lines and crisp intersections. DTS is also replete with bold details that reward closer inspection, including such Cadillac trademark touches as vertical headlights, fast-illuminating LED tail lights, a full-width LED centre high-mounted stop light and sculpted alloy wheels. Importantly, the DTS body is as seductive to the wind as it is to the eye. Its aerodynamic drag measures just 0.32, which results in improvements in performance, fuel efficiency and interior peace and quiet.
EXPAND YOUR PERSONAL SPACE
LUXURIOUS
Fine materials make the DTS passenger compartment a delight for you, your family, your colleagues and your friends. Chrome and aluminum accents abound. Burled walnut trim is available to adorn the instrument panel, console and doors. DTS also offers a choice of three different premium leathers — the most in any full-size luxury sedan — including available Tehama aniline skins so supple, they’re typically found only on the most exclusive home furnishings. To complete this picture of extraordinary luxury, specify the available heated wood and leather-trimmed steering wheel with power tilt and telescopic adjustments.

1. Standard Nuance leather — with a sandstone grain finish and a soft feel.
2. Available Tuscany leather — semi-aniline and specially tanned for a glove-like premium feel.
3. Available Tehama leather — a buttery aniline leather that usually graces the most exclusive home furnishings.
4. Natural burled walnut wood (available). The natural grain adds warmth and depth throughout the cabin.

DTS’s seat padding utilizes a dual firmness strategy that combines soft cushioning in the head and shoulder area with firmer support in the cushion and lower seatback area for optimal long-distance support.
No matter what your preference in audio entertainment, you’ll find plenty to choose from with DTS’s available XM Satellite Radio™. It offers the largest playlist and the most commercial-free music on the planet – broadcast coast to coast.* Genres range from decades to dance, rock to rap, and country to classical – all with digital-quality sound. There’s also news, talk, comedy and sports channels – including more than 1000 NHL games. No wonder more than seven million people subscribe to XM Satellite Radio. Ask your dealer for more information.

*Includes three trial months beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous United States.

No unwanted noises are banished by a host of advanced features, including sound-absorbing steel and laminated side-window glass. The sounds you do wish to hear come through with a rare clarity, thanks to the superb standard audio system. It features a CD player, with eight premium speakers and an auxiliary input jack that allows you to entertain your passengers with music stored on your MP3 player. For still greater listening pleasure, an in-dash six-disc CD changer system is available, as are XM Satellite Radio™ and a DVD navigation system featuring the aural purity of Digital Signal Processing.

The available DVD navigation system includes a sophisticated 165 mm (6.5 in.) high-resolution touch screen with a 3D route feature that displays turn-by-turn instructions and fast node calculations.
When StabiliTrak detects a lateral skid, it steps in immediately, applying the appropriate brake(s) to help return your DTS to your desired line.

To provide you with the most sophisticated driving experience possible, DTS offers some of today’s most innovative optional technologies. Adaptive Cruise Control (ACC), for instance, automatically slows your DTS when you encounter slower traffic ahead and maintains a pre-set following distance. StabiliTrak intervenes automatically to help end lateral skids and restore steering control. Another innovation, IntelliBeam™, switches between high-beam and low-beam headlights when appropriate during night driving, for optimal illumination and vision.

DTS’s class-exclusive IntelliBeam headlight system uses light-sensing technology to determine the presence of traffic ahead. Any time no traffic is detected, the system selects high-beam headlight mode to help you see better.
With the stylish DTS key fob, you can lock or unlock the doors, open the trunk and start the engine. There’s also a Panic feature that, if you’re wishing DTS weren’t as quiet, should have the desired effect.

On cold February mornings and blistering July afternoons alike, Adaptive Remote Start helps make your DTS’s interior an even more inviting environment for your arrival. Simply touch the button on the key fob up to 60 metres (200 feet) away. Not only does the engine engage automatically, but so do the climate control systems and, when appropriate, the defrosters and heated seats. By the time you enter the DTS’s cabin, the interior is well on its way to being a comfortable sanctuary from the weather outside.
Instead of the traditional mechanical throttle linkage, DTS connects your right foot to the Northstar V8 via drive-by-wire Electronic Throttle Control (ETC). This advanced electronic technology affords a greater degree of efficiency and control.

DTS's high-speed data bus distributes information to components like the Engine Control Module (ECM) at speeds up to 50 times faster than previous designs, ensuring the precise coordination of the car’s diverse systems.

When it comes to luxury powerplants, Northstar is the last word. DTS's standard Northstar V8 produces a generous 275 horsepower and 295 pounds-feet of torque—enough for sparkling performance. (For even more spirited acceleration, a high-output 292-horsepower version is also available.) Yet impressive output is only one of the high-tech Northstar V8's desirable characteristics. It's also satisfyingly smooth and nearly silent in operation, and it features a host of long-life components, including Mobil1® synthetic lubricant that help reduce the frequency of its scheduled maintenance.
One automotive tradition that DTS happily dispenses with is the age-old trade-off between ride and handling. With advanced magneto-rheological fluid in its shock absorbers, the available Magnetic Ride Control suspension assesses road and driving conditions and adjusts the shocks up to 1000 times per second to ensure precisely the right damping characteristics. The result: comfortably controlled ride motions even on the worst of surfaces, along with a kind of handling agility you may find astonishing in this class of car.

The available Magnetic Ride Control suspension features shock absorbers filled with metal particles and a special fluid that stiffens automatically when exposed to a magnetic field.
1 - Head curtain side air bags - rear. Provides neck and head protection in certain side impacts. Full-length air bags protect all outboard occupants.
2 - Head curtain side air bags - front. Provides neck and head protection in certain side impacts. Full-length air bags protect all outboard occupants.
3 - Seat-mounted side air bags - front. Provides protection for the mid-section of the body in certain side impacts. Seat-mounted air bags protect driver and outboard front passenger.
4 - Dual-stage frontal air bag - driver. Provides protection in moderate to severe frontal impacts.
5 - Industry-first dual-depth dual-stage air bag - passenger. Deploys in two sizes and at different pressures as determined by safety belt use, seat position and crash severity. Provides protection in moderate to severe frontal impacts.

*Turn-by-Turn availability impacted by some geographic/cellular limitations, advisor-assisted routing available.

**OnStar services require vehicle electrical system (including battery), wireless service, and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. OnStar Hands-Free Calling requires a Hands-Free enabled vehicle, prepaid minutes or enrollment in a shared minutes plan and existing OnStar service contract. Subscription Service Agreement required.

For 2008, DTS introduces two important new technologies to help you reach your destination safely. The available Lane Departure Warning system uses advanced sensors to inform you when you may have strayed out of your chosen lane on the highway. Available Side Blind Zone Alert notifies you automatically when there is another vehicle travelling in your “blind spot.” They join a host of other standard and available DTS safety systems, including StabiliTrak, a full-range traction control system and six air bags offering eight zones of protection. For an extra dimension of safety and security, DTS also offers OnStar and one year of the Directions & Connections Plan as standard equipment.
DTS Platinum Edition takes the DTS concept to a higher plane of style, comfort and exclusivity. You ride on premium full leather seats in a cabin trimmed in your choice of Ebony or Light Linen, with genuine Light Ash wood accents. In addition to the seats, the steering wheel, console and instrument panel are finished with leather exquisitely crafted with French seams. Specific exterior badging and chrome accents, 18-inch chrome-finished wheels, a sunroof, DVD navigation system and a host of other premium features complete the package.
Show your unique personality and endow your DTS with an even higher level of style and functionality by adding carefully chosen quality accessories. Genuine GM Accessories are designed especially for your DTS and engineered to the highest standards, ensuring excellent fit, finish, and functionality. They're covered under the 4-year/80,000 km Cadillac Limited Warranty.† They can also be included in your new-vehicle lease or finance agreement through GMAC. Ask your dealer for a complete list of the GM Accessories available for DTS. Or visit gm.ca

†Whichever comes first, when permanently installed by the dealer at the time you purchase or lease your new vehicle.

THE NEXT STEP
ACCESSORIES

ACQUISITION OPTIONS
In addition to the many exclusive privileges of Cadillac ownership, Cadillac and General Motors of Canada have created a range of supplementary support programs to enhance your ownership experience. Some of these programs assist you in purchasing or leasing the Cadillac of your choice. Others help protect your and your new Cadillac over the long term.

Purchasing & Leasing:
• GM Express Credit Application— a convenient way to get pre-approved credit towards the purchase or lease of your new GM vehicle.
• GMPC Purchase Financing— On-the-road financing at your dealership.†
• GMAC Seawatch™— A smart alternative to traditional financing.
• GMAC SureLease™— easy, worry-free leasing protecting you against unexpected excess wear costs. Must be purchased when signing a GMPC SureLease™ agreement.
• The GM Card— Eligible cardholders may be able to renew a up to $1500 in GM Card Savings toward the full purchase price or lease down payment on selected vehicles.†† For more information on The GM Card please call 1-800-461-3275.

Additional Ownership Programs:
• GM Protection Plan (GPP)— The only extended services plan backed by the resources and commitment of General Motors. GPP may be purchased at the time of your sale or lease, or subsequently during the New Vehicle Limited warranty period.††

Information Resources:
You can find more information about Cadillac vehicles and programs from your Cadillac dealer or at these information centers:
• The GM website at gm.ca
• The Cadillac Contact Centre at 1-800-446-2000 or (905) 363-3020 for (100 years)
• For more information about GMAC visit gmac.com or call 1-866-616-4822.

A word about this brochure
Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensible and logical. We mean the right thing, even when changes are made at any time, without notice, in colors, materials, equipment, specifications, models, and availability. Specifications, dimensions, measurements, ratings, and other numbers in this brochure and other printed materials provided by the manufacturer or retailer are approximate based upon design and engineering drawings and prototypes and sampling tools. Your vehicle may differ due to variations in manufacturing and equipment. Since some information may have been adapted since the time of the printing, please check with your Cadillac dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A word about assembly

Cadillac vehicles are equipped with engines and components produced and assembled by different operating units of General Motors. It's circumstances and supplies from different sources and from time to time. All such engines and components are approved for use in Cadillac vehicles. Complete engine or assembly order may be maintained at the time of assembly and we reserve the right that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

A word about corrosion

Cadillac are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 5 years. There is no deductible for rust-through repairs. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended.

Trademarks
The words appearing in this Cadillac DTS brochure including, but not limited to General Motors, GM, the GM Canada emblem, Cadillac, the Cadillac badge, Cadillac DTS, Cadillac DTS Accessories, DTS, and/or associated marks and logos are registered trademarks and/or service marks of General Motors Corporation and/or General Motors of Canada Limited. Theorraine, Cadillac, Stang, Road Runner, El Camino, Caprice, and Lumina are trademarks of General Motors Corporation and/or General Motors of Canada Limited. **SAFETY AND SECURITY**

- **AIR BAGS**
  - Driver and front passenger-side, dual-stage, inflator, rollover with passenger-side dual-stage and automatic airbag suppression
  - Driver and front passenger-side, seat-mounted, side impact
  - Front and rear side impact

- **DOOR LOCKS**
  - Electronic power, programmable with lock out protection

- **HID HEADLIGHTS**
  - Xenon halogen headlamps, automatic right control with Puddle Light®

- **FRONT CENTER CONSOLE**
  - Glove box with lock and light

- **REAR VIEW MIRROR**
  - Auto-dimming, electrochromic, integrated turn signal indicator, power, anti-glare, and express-down feature

- **RADIO DATA SYSTEM**
  - Satellite radio, XM

- **STEERING WHEEL**
  - Leather-wrapped, with audio and cruise control switches

- **SUREHOLD® STEERING WHEEL HUB**
  - With built-in, automatic, vehicle detection sensors to maintain pre-set following distance (includes silver-painted grille)

**INTERIOR (continued)**

- **CRUISE CONTROL**
  - Electronic, steering wheel-mounted with controls, coast and electronic brake applied (includes silver-painted grille)
  - Electronic, steering wheel-mounted with resume, coast and electronic brake applied

- **DASHBOARD**
  - Air filtration system – particulate
  - Passenger side: automatic climate control with air filtration system

- **FLUSH MOTION LIGHTING**
  - Intense, flood- and rear passing

- **LIFTGATE**
  - Dual-action, electro-mechanical, with automatic variable delay

- **MEMORY/PERSONALIZATION PACKAGE**
  - Automatically recalls seating and steering wheel position based on three individual settings

- **POWER REAR DOORS**
  - Automatic, power fold-down centre armrest and shifter located on steering column

- **TIRE PRESSURE MONITOR SYSTEM**
  - Electronic, with low tire pressure warning light

- **VAS/THEFTLOCK®**
  - Remote, includes remote vehicle starter system, lock/unlock, personalization, and cellphone pre-sets and power tilt and telescopic steering wheel

**PREferred EQUIPMENT GROUPS (PEG)**

- **AUDIO SYSTEM**
  - AM/FM stereo with CD player
  - Auxiliary audio input jack
  - TheftLock®

- **SAFETY RESTRAINTS**
  - Driver and front passenger-side, seat-mounted, side impact
  - Front bucket seats with power 8-way driver and front-passenger seat adjusters, power windows and seatback adjusters (4 passengers)

- **TOWING PACKAGE**
  - 2,950 lb.SAE maximum
  - Front and rear obstacle detection system with adaptive cruise control

- **EXTERIOR DIMENSIONS**
  - Width (A) 1820 mm (71.7 in.)

- **DIMENSIONS**
  - Height (A) 1500 mm (59.1 in.)
